Chairman's Statement

Shri Madanlal J. Hinduja
Chairman

I have great pleasure in sharing with you the highlights of another eventful year.

The year 2007-08 has just passed and the values which we have long sustained have in turn sustained us to face testing circumstances. It was an eventful year marked by several reverses in global economic scene. The worst ever hit to the exporting community and more so to the textile industry was the appreciation of the Indian Rupee by 14% in a span of 12 months.

Never in the history of Indian exports, the Rupee has climbed to this value. Besides this, of course, the general appreciation of costs, the subprime crisis and the looming US recession have resulted in the markets becoming extremely cautious and competitive. We are in the midst of very turbulent times. Economists are predicting various scenarios for the future.

We all have our own opinions. However, it is action that must be taken, to face these problems. In spite of the

steep Rupee appreciation, we have managed to maintain the top line. If the Dollar/Rupee equation had been the same as last year, this probably would have been one of our best years, with the bottom line of about Rs.85 Crores and top line of about Rs. 1100 Crores.

Volume-wise we did manufacture 47 lakhs units more and with 2 new factories than last year, but in spite of this, with the low realisation of the Dollar, we just managed to cross last year's revenue.

The adverse impact of the steep Rupee appreciation has reduced the profitability of the business and covered the underlying strong performance supported by robust volume growth. However, in spite of this, we also believe in a strong future for our business and our investment into new business had been maintained. Our capex investment was to the tune of Rs. 70 Crores and two new plants, one at Mysore and the other at Tumkur have been commissioned.

The Indian Apparel Industry is going to grow and has a bright future, and your company plays a significant role supporting the apparel industry worldwide. Besides, we are committed to good governance, sharing of information with shareholders and enhancing shareholder value.

In the coming years we intend to enlarge the range of products. The Indian domestic market has opened a new and exciting segment for us. We saw an opportunity and promise in this segment earlier and we, in the past year, were able to redesign and cater and make products required by this segment.

We are now able to offer products across various segments, for premium or medium priced brands. The medium price segment will surely see strong competition and we must continue our efforts through innovations and cost reductions to stay ahead.

I also wish to highlight that this year we had the world's largest private equity fund, M/s. Blackstone, joining hands with us. We welcome on our Board the new Directors of M/s. Blackstone, namely Shri Akhil Gupta, Shri Richard Saldanha and Shri Mathew Cyriac. We are sure, with their expertise and foresight our company will grow to greater heights.

I also wish to welcome our new Director, Shri Prince Asirvatham, who joined our Board in place of Shri Pradeep Shah who had resigned earlier. Shri Prince Asirvatham is heading the Audit Committee.

Behind the company's success has always been our people and manpower, and this has been our strength. This strength and dedication has been recognized and we are the proud recipients of the Dun & Bradstreet Award for Export Excellence for the year 2007-08.

At the end I would like to thank our Board of Directors for their support, and look forward to their inspired leadership and constant help to face the challenges which we have ahead. I am most grateful to all our customers, suppliers, bankers and our workforce who have given their constant support.

Dividend

Your directors recommend a dividend of Rs.1/- per share (20%) for the year ended 31st March 2008, subject to the approval of the shareholders at the ensuing Annual General Meeting. Shareholders whose names stand registered on the register of members at the close of market hours on August 27, 2008 would be entitled for the dividend.

Operations Review

The year 2007-08 was an eventful year, marked by several reversals in the global economy. The Rupee appreciated, costs

increased, a subprime crisis occurred, there is a U.S. recession looming over the entire world and the apparel markets have been extremely wary and cautious.

Headquartered in Bangalore, Gokaldas Exports operates out of over 50 factories located in and around Bangalore, Chennai, Hyderabad, Mysore and Tumkur. The factories are dedicated both buyer wise and product wise, specialising in creating Outerwear, Blazers and Pants (Formal and Casuals), Shorts, Shirts, Blouses, Denim Wear, Swim Wear, Active and Sports Wear. Keeping pace with the requirements of famous labels in 39 countries.

Apparel exports from India in the year 2007-08 have shown a 'Nil' growth and India has managed to be in line with 2006-07 figures. Competition from our neighbouring countries,

Especially Vietnam, Bangladesh and Cambodia have been very much on the higher side and added to this the U.S. slowdown has made matters worse for the entire industry.

If the Rupee had been at the level of last year (approx. Rs. 44 per USD) our performance would have been far better and this year would have been among the best years. Our EBIDTA would have been Rs.155 Crores and the net profit would have been Rs.85 Crores.

This year we have added 2 new factories, one at Tumkur and the other at Mysore.

In the last 4 weeks the Rupee has depreciated 6% and the currency markets are very volatile. However, this depreciation of the Rupee would not reflect immediate additional profits because of the forward cover hedging we have made upto September/October, '2008.

As regards China is concerned, India has some good news, China is also facing difficult time because of the following reasons.

- The Chinese currency has appreciated by 7%.
- Wages in China have gone up by 28%.
- Chinese government subsidies to the industry has been reduced by 3%.

Added to these, they are facing a lot of pressure due to the Olympic Games, and the Chinese inflation seems to be very high.

The general forecast for the Textile market is that in the last quarter of this year a lot of business will come to India's way and things will improve for the Indian apparel Industry substantially.

MANAGEMENT DISCUSSION AND ANALYSIS

Introduction

Gokaldas Exports Limited (GEL) is the largest and one of the leading exporter of apparel in India having worldwide presence with established manufacturing, marketing and research capabilities and is a ISO 9001:2002 certified company. GEL is vertically integrated with a presence across the apparel and textile products. GEL has more than 46 factories spreading in 45 locations in Bangalore and Chennai, manufacturing more than 2.5 million garments per month.

The principal products that GEL produces are outer wear and bottom wear. Outerwear includes both sports wear and winter wear and bottom wear include casual pants, chinos, linen trousers, denim jeans etc. The following pie graph depicts the product mix for the year 2007-08:

Graphical representation of product mix

More than 93% of revenues come from export activity. GEL has big plans to enhance the production capacity to 3 million garments per month by the end of current fiscal. Towards this objective, we are investing more than Rs. 1000 million in the next two years, which would make us to further consolidate lead in the apparel and textile industry.

Industry Structure and Developments

The Textile and Clothing Sector has witnessed unprecedented investment trend in the last few years, so much so that for the last 5 years the CAGR of investment has been around 100%. It is more encouraging to see that weak sectors like processing have drawn significant investment in the last 2 years.

The growth figures of the last few years have made the entire textile industry brim with unprecedented confidence and optimism. These growth targets envisaged a fundamental shift in the textile scenario and have taken a trajectory of a very rapid growth. There has been a boost in the Indian Domestic Textile Sector. The increasing GDP per capita has led to greater disposable income with the Indian people. There have been more working female population, leading to increasing purchases and a major portion of the purchases is among the textile and clothing items.

The growth penetration of organized retail (the percentage is expected to increase from the present 3% to 10% by 2010) will increase the availability and hence the purchase of textile and clothing by the Indian consumer.

In the export sector, removal of MFA has given a boost to the Indian textile entrepreneurs, a trend which has only been augmented by the progressive dismantling of spinning and weaving from the developed world. Added to this, the quota limitations to China till 2008 are another incentive to the Indian industry to strengthen itself in the meantime.

MANAGEMENT DISCUSSION AND ANALYSIS

The Indian textile industry plays a vital role in the Indian economy by contributing to GDP, generating employment and earning foreign exchange. An estimated 38 million people are directly employed in the textile industry in India and contributes to 4% of GDP and 20% of total export earnings. India currently exports more than one hundred garment product categories and out of this, cotton apparel exports dominate, contributing nearly 76% by value and synthetic constitutes 12%. Indian textile exports is expected to grow from the current levels to US\$ 50 billion by 2010, consequent to quota removal, apparel being US\$25 billion.

Opportunities and Threats

After dismantling of quotas, India seems to benefit due to raw material, design skills and skilled labour advantages. India is the world's third largest producer of cotton, second largest producer of cotton yarn, third largest exporter of cotton fabric and fourth largest exporter of synthetic fabric. With the establishment of training institutions like National Institute of Fashion Technology (NIFT), many high quality designers, who are able to create modern designs and interact with the buyers, are emerging. This is a distinctive advantage that Indian companies have, and not yet exploited.

In spite of above advantages that India has, there would be pricing pressures in view of dismantling of quotas as new small and medium manufacturers would crop in not only within India but also from other countries where similar quotas were imposed earlier. Also India has geographical disadvantage which take little longer time to reach its products to the key markets. It seems the price has been, more or less, stabilized and the buyers are looking for quality manufactures, even it costs little more. Appreciation of Rupee is also a major concern for the growth of the industry.

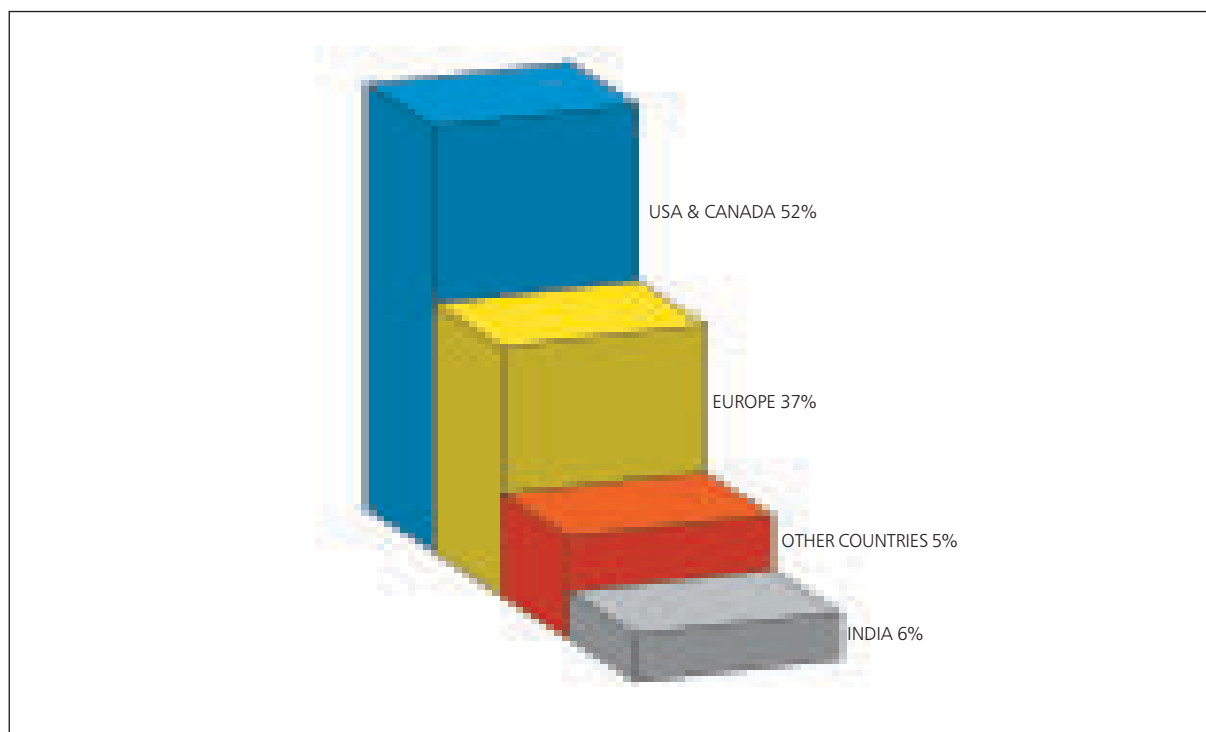

Operating Results / Financial Highlights

The financial statements have been prepared in compliance with the requirements of the Companies Act, 1956 and generally accepted accounting principles (GAAP) in India. The management accepts the responsibility for the integrity and objectivity of these financial statements and the basis for the various estimates and judgments used in preparing the financial statements.

During the year, the Company has achieved a net turnover of Rs.100,581.72 lakhs, out of which 93.34% is in the form of foreign exchange. The Company posted a strong top line performance due to good order book. Profit before tax was at Rs 5,121.65 lakhs and net profit after tax stood at Rs.4,760.86 lakhs.

The higher net profit margin is due to our most of sales are to the foreign buyers, which enjoys higher margins. During 2007-08, USA & Canada dominated with a share of 52% of total turnover and Europe stood in the second with 37%.

Graphical representation of revenues from various geographical locations / countries:

MANAGEMENT DISCUSSION AND ANALYSIS

Some of the key performance indications are given below:

(Rs. in lakhs)		
Particulars	2008	2007
Gross revenue	109,271.36	103,950.64
Profit before tax (PBT)	5,121.65	7,799.11
Ratio of PBT to Gross revenue (%)	4.68%	7.50%
Profit After Tax (PAT)	4,760.86	7,028.27
Ratio of PAT to Gross revenue	4.35%	6.76%
Earnings Per Share (EPS) (Rs.)	13.85	20.45

Risks and Concerns

We are exposed to foreign currency risk. The company is an export oriented apparel manufacturer and approx. 93% of its revenue comes as foreign currency. Since the buyers compare our products with that of competitors in USD denominated rate, appreciation of Indian rupee vis-à-vis USD would weaken our competitive position and similarly, our profits would depend on the Indian rupee appreciation/depreciation. Since the Company is Bangalore based and most of the factories/units are located in and around Bangalore, if there is any localized social unrest, break down of services and utilities, it may affect the business and consequently its revenues. To minimize the locational risks, the Company set up factories / units in Chennai, Mysore and Tumkur.

The Government of India has instituted several policies to promote the growth and these include interest rate subsidies, duty/tax reimbursement schemes etc. Withdrawal/ termination of any of these policies / schemes may adversely impact the profitability of the Company. Also wage costs in India have been significantly lower than the wage costs in the developed countries for skilled professionals in the textile industry, which has been our competitive strength. Wage increase in India may prevent us from sustaining this competitive advantage and may negatively affect our profit margins.

However, the Company has put in place a Risk Management Document which has the objective to create awareness about various risks associated with the business of the Company. It defines the risk policies, lays out the risk strategies and methodology to decide on the risk taking ability of the Company. The risk management process involves risk identification, risk measurement, risk prioritization, risk monitoring, risk escalation and risk mitigation. The Audit Committee and Board have approved this risk management document during last fiscal.

Internal Control Systems and their adequacy

The Company is committed to maintaining an effective system of internal control for facilitating accurate, reliable and speedy compilation of financial information, safeguarding the assets and interests of the Company and ensuring compliance with all laws and regulations. The Company has an internal control department to monitor, review and update internal controls on an ongoing basis. The Company has put in place a well defined organization structure, authority levels and internal guidelines for conducting business transactions.

The Company appointed independent internal auditors, who would monitor and review all transactions independently to get higher level of efficiency and would report directly to the Audit Committee, which consists of entirely independent directors, on quarterly basis. The Internal Auditors conducts audit all key business areas as per the pre-drawn audit plan. All significant audit observations and follow up actions are reported to the Audit Committee along Internal Audit reports and management's responses/replies. The minutes of Audit Committee would be reviewed by the Board for its suggestions/recommendations to further improve the internal control systems.

The Audit Committee periodically reviews audit plans, observations and recommendations of the internal auditors as well as external auditors with reference to significant risk areas and adequacy of internal controls.

MANAGEMENT DISCUSSION AND ANALYSIS

Human Resources / Industrial Relations

The Company believes that its people are a key differentiator, especially in knowledge driven, competitive and global business environment. Adapting work culture to suit the dynamic balancing of people requirements and employee needs is an ongoing process. Fundamental HR processes which enable higher performance orientation, speed, skill and competency development, talent management and human asset refreshal are corner stones for the success of any organization.

As in the past, the industrial relations continued to remain cordial at all factories / units of the Company. The Company has about 45,000 employees as on March 31, 2008 as against 52,000 employees as on March 31, 2007.

SCHEDULE XVII - SIGNIFICANT ACCOUNTING POLICIES AND NOTES TO ACCOUNT

A. Principles of Consolidation

1. The Consolidated Financial Statements relate to the Company [Gokaldas Exports Limited] and its subsidiaries [Together, hereinafter, referred to as 'The Group']. The Consolidated Financial Statements have been prepared on the following basis:

The Financial Statements of the Company and its subsidiary companies are combined on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenses after fully eliminating intra-group balances and intra-group transactions resulting in unrealized profits or losses in accordance with Accounting Standard (AS) 21 – “Consolidated Financial Statements” notified under section 211 (3C) of the Companies Act, 1956 and the relevant provisions of the Companies Act, 1956.

- i. The Consolidated Financial Statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented to the extent possible, in the same manner as the Company's separate Financial Statements except as otherwise stated in the Notes to Account.
 - ii. The difference between the costs of investment in the subsidiaries over the net assets as on the date of acquisition of shares in the subsidiaries is recognized in the Financial Statements as Goodwill (if investment exceeds net assets) or Capital Reserve (if net assets exceeds cost of investment) as the case may be.
 - iii. Minority Interest's share of Net Profit/Loss of Consolidated Subsidiaries for the year is identified and adjusted against the income of the group in order to arrive at the Net Income attributable to the shareholders of the Group.
 - iv. Minority Interest's share of Net Assets of the Group is identified and presented in the Consolidated Balance Sheet separately from liabilities and the equity of the Group's shareholders.
2. Investments other than in subsidiaries have been accounted for as per Accounting Standard (AS) – 13 on “Accounting for Investments” notified under section 211 (3C) of the Companies Act, 1956 and the relevant provisions of the Companies Act, 1956.

B) Significant accounting policies

a) Basis of preparation of Consolidated financial statements

The Consolidated Financial Statements are prepared to comply in all material aspects with all the applicable accounting principles in India, the applicable accounting standards notified under section 211 (3C) of the Companies Act, 1956 and the relevant provisions of the Companies Act, 1956.

b) Revenue recognition

Revenue from sale of goods is recognized when significant risks and rewards of ownership of the goods are transferred to the customer, which is generally on dispatch of goods from factory / warehouse.

Dividend income on investments is accounted when the right to receive the dividend is established.

Revenue in respect of insurance / other claims, interest etc, is recognized only when it is reasonably certain that the ultimate collection will be made.

c) Fixed assets and depreciation

Fixed assets are stated at cost of acquisition/construction, net of grants received, where applicable and subsequent improvements thereto including taxes, duties, freight and other incidental expenses related to acquisition/construction.

Pre-operative factory expenses and cost on trail production have been capitalized and have been proportionately apportioned to fixed assets.

The group evaluates the carrying value of its Goodwill whenever events or changes in circumstances indicate that its carrying value may be impaired for diminution, other than temporary. The group has currently reassessed the circumstances that could indicate the carrying amount of Goodwill may be impaired. As a consequence of such reassessment, the management believes that the expected revenues and earnings of the acquired entities are sustainable in the foreseeable future, and hence goodwill is not impaired.

NOTES TO ACCOUNTS

Depreciation on fixed assets is provided from the end of the month of capitalization, on the written down value method at the rates and in the manner prescribed in Schedule XIV to the Companies Act, 1956.

Assets individually costing Rs. 5,000 or less are fully depreciated in the year of addition.

Cost of leasehold improvements is amortized over the primary period of lease. However, in cases where the company as a lessee has the right of renewal of lease and it is entered to renew for further periods, then the cost of such leasehold improvements is amortized over such extended period, not exceeding ten years.

d) Inventories

Raw materials, packing materials, stores, spares and consumables are valued at weighted average cost.

Finished goods and work in progress are valued at lower of cost and net realisable value after providing cost of obsolescence and other anticipated loss, wherever considered necessary. Finished goods and work in progress includes cost of conversion and other production overheads. Duty liability, if any, in respect of uncleared finished goods are provided for and included in the carrying value of inventories.

e) Export Incentives

Export incentives are recognized on accrual basis in accordance with the applicable schemes formulated by the Government of India.

f) Foreign currency transactions

Foreign currency transactions are recorded at the rate of exchange prevailing on the date of the transaction. At the year end, all the monetary assets and liabilities denominated in foreign currency are restated at the closing exchange rate. Exchange differences resulting from the settlement of such transactions and from the translation of such monetary assets and liabilities are recognized in the Profit and Loss Account.

In respect of transactions covered by forward exchange contracts, the difference between the forward rate and the exchange rate at the date of transaction is recognized as income or expense over the life of the contract.

g) Government Grants

Government grants are recognized where it is reasonably certain that the ultimate collection will be made. During the year the group has accounted for revenue grants by adding the income in case of export incentives and adjusting the interest expenses in case of interest subsidy, under Technology Upgradation Fund (TUF) Scheme.

h) Investments

Long term investments are valued at cost. Cost includes incidental charges incurred towards acquisition of such investments. Provision for diminution, if any, in the value of long term investments is made to recognise a decline, other than temporary.

Current investments are valued at cost or market value, whichever is lower.

Note:

- (i) Based on the announcement made by the Institute of Chartered Accountants of India on March 29, 2008, the group has marked to market certain forward covers falling under the definition of derivatives based on valuation certificates obtained from the banks, as a result of which a loss of Rs.828.63 Lakhs has been recorded as an exceptional item in the books of account.
 - (ii) Figures in brackets relate to previous year.
15. Goodwill arising on consolidation of one of the subsidiaries, Robot Systems Private Limited, is carried in the books of accounts, which has been tested for impairment. In the opinion of the management the subsidiary has certain immovable properties that would realize an amount higher than the cost of goodwill.
 16. Consequent to the notification on December 7, 2006 of Companies (Accounting Standard) Rules, 2006, exchange differences arising on translation of foreign currency liabilities for acquisition of fixed assets from a country outside India, which were hitherto adjusted to the cost of the relevant fixed assets, are now being adjusted to Profit and Loss Account in line with the requirement of the revised Accounting Standard 11(AS11) - "The Effects of Changes in Foreign Exchange Rates". This change in the accounting policy, however, does not have a material impact on the financial statements for the current year.
 17. Previous year's figures have been regrouped/rearranged/reclassified, wherever necessary to conform to the current year's presentation.
