## **SEVEN HILLS CLOTHING PRIVATE LIMITED**

### **SCHEDULES ANNEXED TO AND FORMING PART OF ACCOUNTS FOR THE YEAR ENDED MARCH 31, 2013**

---

#### **1. Corporate Information:**

**Seven Hills Clothing Private Limited** (herein after referred to as "the Company") was incorporated on 18th June 2004. The Company took over all the assets and liabilities of M/s Euro Clothing Company and M/s Triangle Apparels as a going concern on 1st July 2004. The Company became a subsidiary of Gokaldas Exports Limited (formerly known as Gokaldas India Private Limited) on 1st December 2004

#### **2. Basis of preparation of financial statements**

The financial statements of the Company have been prepared in accordance with the generally accepted accounting principles in India (Indian GAAP) and complies in all material respects with the notified accounting standards under Companies (Accounting Standards) Rules (as amended), 2006 and the relevant provisions of the Companies Act, 1956. The financial statements have been prepared under the historical cost convention on an accrual basis except in case of assets for which provision for impairment is made and revaluation is carried out. The accounting policies have been consistently applied by the Company and are consistent with those used in the previous year.

##### **2.1 Summary of Significant accounting policies**

###### **a) Use of estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of revenues, expenses, assets, and liabilities and disclosure of contingent liabilities at the date of the financial statements and the results of operations during the reporting period. Although these estimates are based upon management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in outcomes requiring material adjustment to the carrying amounts of assets and liabilities in future periods.

###### **b) Revenue recognition**

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

Revenue from sale of goods is recognized when significant risks and rewards of ownership of the goods are transferred to the customer.

Export incentives are recognized on accrual basis in accordance with the applicable schemes formulated, by the Government of India.

Revenues from job work contract are recognized as and when services are rendered.

Dividend income on investments is accounted when the right to receive the dividend is established as at reporting date.

Interest income is recognized on a time proportion basis taking into account the amount outstanding and the rate applicable. Insurance / other claims are recognized on acceptance basis.

**c) Fixed assets and depreciation/ amortization (tangible and intangible)**

Fixed assets are stated at cost of acquisition/construction less accumulated depreciation and impairment losses if any, net of grants received, where applicable and subsequent improvements thereto including taxes, duties, freight, and other incidental expenses related to acquisition/construction. Any trade discounts and rebates are deducted in arriving at the purchase price.

Depreciation is provided using the written down value method as per the useful lives of the assets estimated by the management, or at the rates prescribed under Schedule XIV of the Companies Act, 1956 whichever is higher.

	<u>Rate of depreciation (WDV)</u>
Buildings	10.00%
Plant & Machinery	13.91%
Electrical Equipments	13.91%
Office Equipments	13.91%
Furniture & Fixtures	18.10%
Computers	40.00%
Vehicles	25.89%
Computer Software (Intangibles)	40.00%

Assets individually costing Rs. 5,000 or less are fully depreciated in the year of addition. Leasehold improvements are depreciated over the primary lease period or useful life, whichever is lower.

Intangible assets comprising of Know-how (Process improvement costs) are amortized over 36 months.

**d) Borrowing Costs**

Borrowing costs includes interest, amortisation of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing costs attributable to acquisition and construction of qualifying assets that necessarily takes substantial period of time to get ready for its intended use are capitalized as a part of the cost of such asset. All other borrowing costs are expensed in the period they occur.

**e) Impairment of tangible and intangible assets**

At each reporting date, the Company assesses whether there is any indication that an asset may be impaired. If any such indication exists, the Company estimates the recoverable amount. If the carrying amount of the asset exceeds its recoverable amount, an impairment loss is recognized in the statement of profit and loss to the extent the carrying amount exceeds the recoverable amount. The recoverable amount is the greater of the asset's net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value at the weighted average cost of capital. After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

**f) Inventories**

Raw materials, packing materials, stores, spares, and consumables are valued at lower of cost and net realizable value. Cost is determined on a weighted average basis. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.

Finished goods and work in progress are valued at lower of cost and net realisable value after considering provision for obsolescence and other anticipated loss, wherever considered necessary. Finished goods and work in progress includes cost of conversion and other production overheads. Cost is determined on a weighted average basis. Cost of finished goods includes excise duty.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

**g) Foreign currency transactions**

**(i) Initial Recognition**

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

**(ii) Conversion**

Foreign currency monetary items are reported using the closing rate. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction; and non-monetary items which are carried at fair value or other similar valuation denominated in a foreign currency are reported using the exchange rates that existed when the values were determined.

**(iii) Exchange Differences**

Exchange differences arising on the settlement of monetary items or on reporting monetary items of Company at rates different from those at which they were initially recorded during the year, or reported in previous financial statements, are recognised as income or as expenses in the year in which they arise.

**h) Government Grants and subsidies**

Grants and subsidies from the government are recognized when there is reasonable assurance that the grant/subsidy will be received and all attaching conditions will be complied with.

When the grant or subsidy relates to an expense item, it is netted off with the relevant expense. Where the grant or subsidy relates to an asset, its value is deducted in arriving at the carrying amount of the related asset.

**i) Investments**

Investments that are readily realizable and intended to be held for not more than a year from the date on which such investments are made, are classified as current investments. All other investments are classified as long-term investments. Current investments are carried at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value is made to recognize a decline other than temporary in the value of the investments. On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged / credited to statement of profit and loss.

**j) Retirement and Other Employee Benefits**

**(i) Defined Contribution Plans:**

Contributions to provident fund are made at pre-determined rates and charged to the statement of profit and loss for the year when contributions are due. The Company has no obligation, other than the contribution payable to the provident fund.

**(ii) Defined Benefit Plans:**

Gratuity liability is accrued in the books based on actuarial valuation on projected unit credit method as at reporting date. Actuarial gains or losses are immediately taken to statement of profit and loss and are not deferred.

**(iii) Compensated absences:**

Accumulated leave, which is expected to be utilised within the next twelve months, is treated as short-term employee benefit. The Company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the basis of an actuarial valuation using the projected unit credit method at the year end. Actuarial gains or losses are immediately taken to statement of profit and loss

and are not deferred. The company presents the leave as a current liability in the balance sheet, to the extent it does not have an unconditional right to defer its settlement for twelve months after the reporting date. Where company has the unconditional legal and contractual right to defer the settlement for a period beyond twelve months, the same is presented as non-current liability.

The company recognises termination benefit as a liability and an expense when the company has a present obligation as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the termination benefits fall due more than twelve months after the balance sheet date, they are measured at present value of future cash flows using the discount rate determined by reference to market yields at the balance sheet date on government bonds.

#### **k) Taxation**

Tax expense comprises current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961. Deferred income taxes reflects the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years.

Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the reporting date. Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to the taxes on income levied by same governing taxation laws. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. In situations where the Company has unabsorbed depreciation or carry forward tax losses, deferred tax asset is recognised only to the extent that it has timing differences the reversal of which will result in sufficient income or there is other convincing evidence that sufficient taxable income will be available against which such deferred tax assets can be realised.

At each reporting date, the Company re-assesses unrecognised deferred tax assets. It recognises deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be that sufficient future taxable income will be available against which such deferred tax assets can be realised.

The carrying amount of deferred tax assets are reviewed at each reporting date. The Company writes-down the carrying amount of a deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realised.

Minimum Alternative Tax ('MAT') credit is recognised, as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. In the year in which the MAT credit becomes eligible to be recognized as an asset in accordance with the recommendations contained in Guidance Note issued by the Institute of Chartered Accountants of India, the said asset is created by way of a credit to the statement of profit and loss and shown as MAT Credit Entitlement. The Company reviews the same at each reporting date and writes down the carrying amount of MAT Credit Entitlement to the extent there is no longer convincing evidence to the effect that Company will pay normal Income Tax during the specified period.

#### **l) Accounting for leases**

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased term, are classified as operating leases. Operating lease payments are recognized as an expense in the statement of profit and loss on a straight-line basis over the lease term.

**m) Provisions**

A provision is recognised when an enterprise has a present obligation as a result of past event; it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the reporting date. These are reviewed at each reporting date and adjusted to reflect the current best estimates.

**n) Segment Reporting Policies**

**(i) Identification of segments:**

The Company's operating businesses are organized and managed separately according to the nature of products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets. The analysis of geographical segments is based on the areas in which major operating divisions of the Company operate.

**(ii) Basis of allocation:**

Assets, liabilities, income, and expenditure are allocated to each segment according to the relative contribution of each segment to the total amount. Unallocated items include general corporate items, which are not allocated to any segment.

**(iii) Segment Policies:**

The Company prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Company as a whole.

**o) Earnings Per Share**

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting preference dividends and attributable taxes) by the weighted average number of equity shares outstanding during the period. Partly paid equity shares are treated as a fraction of an equity share to the extent that they were entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the period is adjusted for events of bonus issue; bonus element in a rights issue to existing shareholders; share split; and reverse share split (consolidation of shares).

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

**p) Contingent Liability**

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the controls of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognise a contingent liability but discloses its existence in the financial statements.

**q) Cash and Cash equivalents**

Cash and cash equivalents for the purpose of cash flow statement comprise cash at bank and in hand and short-term investments with an original maturity of three months or less.

## Notes to Account

### 20. Contingent liabilities

(Amount in Rs.)

Particulars	2013	2012
Claims against the Company not acknowledged as debts	266,031	940,918
Guarantees given by banks	Nil	Nil
Outstanding letters of credit	Nil	Nil
Export Bills discounted with banks	Nil	Nil
Estimated amount of contracts remaining to be executed on capital accounts and not provided for (net of advances)	Nil	Nil

### 21. Gratuity

The Company has a defined benefit gratuity plan. Every employee who has completed five years or more of service gets a gratuity on departure at 15 days salary (last drawn salary) for each completed year of service. The scheme is funded with an insurance company in the form of a qualifying insurance policy.

The following tables summarise the components of net benefit expense recognised in the profit and loss account and the funded status and amounts recognised in the balance sheet for the respective plans.

Net employee benefit expense (in Profit and Loss Account)

(Amount in Rs)

	2013	2012
Current Service Cost	6,340,512	8,402,096
Interest cost on benefit obligation	1,023,711	575,430
Expected Return on Plan Assets	(277,184)	(242,954)
Actuarial gain/(loss)	(286,950)	(168,887)
<b>Net benefit expense</b>	<b>6,800,089</b>	<b>8,565,685</b>

Details of Provision for gratuity (in Balance Sheet)

(Amount in Rs)

	2013	2012
Defined benefit obligation	17,993,247	13,894,644
Fair value of plan asset	3,030,435	4,169,720
<b>Liability recognized in the balance sheet</b>	<b>(14,962,812)</b>	<b>(9,724,924)</b>

Changes in the present value of the defined benefit obligation are as follows:

(Amount in Rs)

	2013	2012
Opening defined benefit obligation – Current	172,962	689,238
Opening defined benefit obligation	13,721,682	7,795,213
Current Service Cost	6,340,512	8,402,096
Interest Cost	1,023,711	575,430
Benefits Paid	(2,972,044)	(3,429,370)
Actuarial (gain)/loss	(293,576)	(137,963)
<b>Closing defined benefit obligation</b>	<b>17,993,247</b>	<b>13,894,644</b>
Closing defined benefit obligation – Current	1,968,172	172,962
Closing defined benefit obligation – Non current	16,025,075	13,721,682

Changes in the fair value of plan asset are as follows:

(Amount in Rs)

	2013	2012
Opening fair value of plan asset	4,169,720	2,178,018
Expected return	277,184	242,954
Actuarial gain/(loss)	(6,626)	30,924
Contributions (less risk premium, service tax)	-	2,967,432
Benefits Paid	(1,409,843)	(1,249,608)
Contribution for Benefits settled directly by company	1,562,201	2,179,762
Benefits settled directly by company	(1,562,201)	(2,179,762)
<b>Closing fair value of plan asset</b>	<b>3,030,435</b>	<b>4,169,720</b>

The principal assumptions used in determining gratuity obligations for the Company's plan are shown below:

Interest Rate	8.25%	8.50%
Discount Factor	8.25%	8.50%
Estimated Rate of return on Plan Assets	8.00%	8.00%
Attrition Rate	40.00%	25.00%
Rate of escalation in Salary per annum	5.00%	5.00%
Retirement Age	60	58

The Company expects to contribute Rs. 68,00,000 to gratuity in 2013-14.

The major categories of plan asset as a percentage of the fair value of total plan asset are as follows:

	2013	2012
Investments with insurer %	100	100

Notes:

- The estimate of future salary increases considered in actuarial valuation takes into account inflation, seniority, promotion and other relevant factors such as supply and demand in the employment market.

## 22. Segment information

### a) Primary business segment

The Company is engaged in a single business segment of job work related to garment, and hence, no additional disclosures are required, other than those already given in the financial statements.

### b) Secondary business segment (by geographical area based on location of customers):

(Amount in Rs)

Geographical Segment	Revenues	Carrying amount of segment assets (Debtors)
In India	670,187,842 (594,228,736)	31,269,424 (8,011,822)
Outside India		
<b>Total</b>	<b>670,187,842 (594,227,736)</b>	<b>31,269,424 (8,011,822)</b>

Note:

- All fixed assets are located in India.
- Figures in brackets relate to previous year.

**28. CIF value of imports**

Current Year : Nil Previous Period : Nil

**29. Expenditure in foreign currency on accrual basis**

Current Year : Nil Previous Period : Nil

**30. Imported and indigenous raw materials, stores and spare parts consumed**
